

Name: _____

Beneath the Bog

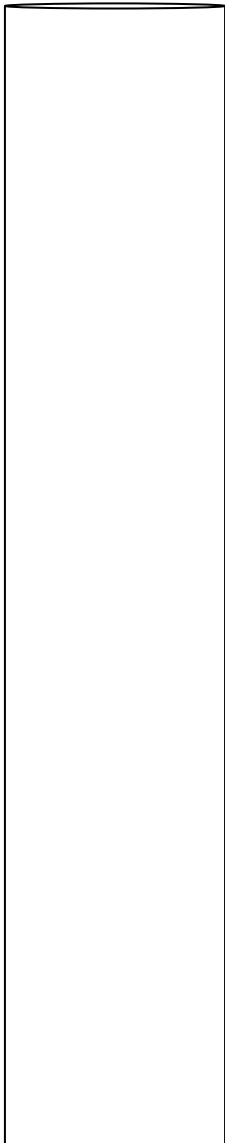

Decoding the Core

1. Take a look at the model core sample. Is it labeled X, Y, or Z?
2. Draw what you see in the matching space below.
3. Use the key to label each soil layer.
4. Repeat for the other two core samples you will receive.

☐ Core Sample X

☐ Core Sample Y

☐ Core Sample Z

**Which core sample do you think represents a cranberry grower's bog?
Place a check mark in the check box next to its name.**
