

“Bugs” on My Bog!

Taking Action

Directions: Using the information you learned from the Growers’ Association Brief, *What is IPM?*, explain why each treatment option could be a good choice (pro) for your particular insect pest problem, or a poor choice (con).

Insect Type	Life Cycle Stage	Treatment Options			
		Continue to Monitor	Quick Flood of Bog	Chemical Controls	Biological Controls
		pro:	pro:	pro:	pro:
		con:	con:	con:	con:

What pest management strategy have you decided on? _____
